Financial Modeling is a great course. My excel skills have improved so much from taking this course. I learned a lot from this course.	1	9.09%
I loved having this class, it is one of the best classes since we can learn all the excel tools we can use for modeling. All the homeworks were helpful and allowed us to learn the most.	1	9.09%
I loved the model of working on the projects in class with Jason. Being able to bounce questions off of him or other students made the excel problems much easier to digest and work through.	1	9.09%

Separate the class for graduates and undergraduates. It gets really messy and confusing when all the deadlines and communications are mixed up. Each class should have its own section on D2L with its own deadlines and its own announcements. Having everything based on the undergrad's schedule was hard for the graduates and this should not be happening.	1	9.09%
This course should not be once a week. twice a week would be better. It is hard to sit and star focus for 2 hours and 45 mins.	1	9.09%
to add more video lectures	1	9.09%
